

Altay Global

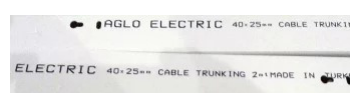

Our company, that was established in 2015, has moved to its new workplace based in Çatalca-Istanbul where it has been active since the beginning of 2017. ALTAY GLOBAL TRADING is a foreign trade company which is understood by its name and deals with import and export in general. Our company has primarily focused on import and export of electrical & lighting products on which it has many years experience. Later on, as demand from the market and new opportunities emerged, we started importing and exporting some other products such as Tissue Paper & Machinery, Cosmetics & Personal Care Products and so on.

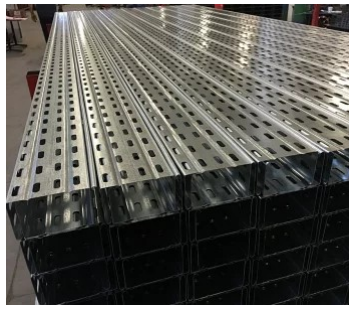

ALTAY GLOBAL TRADING has its own registered brand "AGLO ELECTRIC" and is getting its various electrical & lighting products manufactured as private label and exports to abroad.

We can keep the pulse of the market as a result of our strong business cooperation with reputable Turkish and oversea companies and we are able to supply the best quality products and services at affordable prices.

In the near future, our company also aims to establish regional dealerships in Turkey and focus on e-commerce activities with its own branded (AGLO ELECTRIC) products as well as the products of the producers that already have business cooperation with us.
